MESON2014

piątek 30 maja 2014

Parallel Session A2 - Parallel A (16:50-18:30)

time	title	presenter
16:50	The importance of vector meson-baryon dynamics on meson production reactions around 2 GeV	RAMOS, Angels
17:10	Polarization observables T and F in single π^0 and η -photoproduction off quasi-free nucleons	STRUB, Thomas
17:30	Measurement of the quasi free $n \rightarrow n\pi^+\pi^-$ and $n \rightarrow p\pi^-\pi^0$ reactions at 1.25 GeV with HADES	KURILKIN, Aleksey
17:50	Measurement of the transition form factor in $\phi \rightarrow \eta e^+ e^-$ and $\phi \rightarrow \pi^0 e^+ e^-$ decays at KLOE	SARRA, Ivano
18:10	Close to threshold η meson production in proton-proton collisions at COSY-11	CZERWIŃSKI, Eryk
