

Production of χ_c meson pairs with additional emission

Izabela Babiarcz in collaboration with W. Schafer and A. Szczurek
Institute of Nuclear Physics PAS

The cross section for the inclusive production of χ_c pair:

$$d\sigma(gg \rightarrow \chi_c(J)\chi_c(J)X) =$$

$$d\sigma^{(0)}(2 \rightarrow 2) + d\sigma^{(1)}(2 \rightarrow 2) + d\sigma(2 \rightarrow 3)$$
